

**REMARKS**

Claims 43-67 are pending in the present application. Consideration of the pending Claims is respectfully requested in view of the following remarks.

**Telephonic Interview**

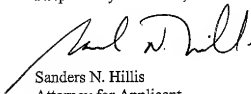

Applicant thanks the Examiner (Anthony S. Addy) for the courtesies extended to Applicant's attorney (Sanders N. Hillis, Reg. No. 45,712) during the telephonic interview of January 8, 2008 in which currently pending independent Claims 43 and 53, and previously pending Claims 15 and 32 were discussed in view of the Office Communication mailed December 5, 2007. During the discussion, it was agreed that presently pending Claims 43-67 were readable on the elected invention.

**The Election/Restriction**

On page 2 of the Office Communication mailed December 5, 2007 it was asserted Claims 43-67 were drawn to a non-elected invention. Applicant respectfully traverses this assertion. As discussed during the telephonic interview of January 8, 2008, the presently pending claims describe an email server, a first application, and a second application similar to canceled claims 14-42. In addition, at least Claim 32 describes a first type of email message and a second type of email message. Accordingly, as agreed during the telephonic interview, presently pending Claims 43-67 are drawn to the elected invention.

Applicant respectfully requests examination on the merits of the presently pending claims, and issuance of a notice of allowance or a non-final office action. Should the Examiner deem a telephone conference to be beneficial in expediting allowance/examination of this application, the Examiner is invited to call the undersigned attorney at the telephone number listed below.

Respectfully submitted,
